DETAILED ACTION

1. Claims 15-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the reply filed on 8-18-05.
2. Applicant should note, while an action on the merits on withdrawn claim 15 is not included herein, in an effort to expedite prosecution, it is noted "bond" in line 3 should be ~~–bonded–~~.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 7-9, 11-12, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Scheidmentel et al (figure 3 embodiment).

Note first substrate 20+ defining a first cavity as broadly claimed, skin 18+ and a bun including foam material 16 directly bonded to a second substrate 32 and not the first substrate as broadly claimed – note section 4, lines 50-60 etc.

Regarding claim 7 as newly amended, while it is true that foam material 16 is formed from a cut pre-hardened foam, the original foam material (prior to cutting) would define a poured foam material and reads on the newly added amended claims *as broadly recited*.

Claims 8 and 9, the first cavity defines a taper and a curvature which function as broadly claimed.

Claim 11, note the ridge above label 50 in figure 3 and engaging lip at 52 as broadly claimed.

Claim 12, note aperture/detent 48+ engagement as broadly claimed.

Claim 14, note lip 52 and engaging locating face of the second substrate in figure 3 as broadly claimed.

5. Claims 10 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Note while the examiner has relied upon one of the previously utilized references of the last office action, it is a different figure/embodiment that is now being read on the instant claims as amended.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3612

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
